About US

Deciding the packaging that will represent your brand can be a daunting task. What type of container, the material, the design, the presentation…all thoughts that rush through your head, it's enough to make it spin! CannaZip is here to take the trouble and worry out of the equation. We offer stylish, professional, direct-to-package printing, giving your brand the look and feel of a major player in the market.

With our low minimum order quantities, you don't have to buy thousands of pieces to get a great price or a quality product. With industry leading fast turnaround and an easy ordering process, getting the perfect package seem almost too easy!

Now more than ever are short runs, high customization, and a professional presentation, the foundational building blocks, to meeting the needs of your customers, in a rapidly changing market. Our staff is dedicated to getting you the perfect package for your products as quick and painless as possible.

Remember – the package and presentation is what makes a customer choose your brand over the product next to it. Don't make the wrong decision and settle for a low-quality substitute. It's too often that you get what you pay for, so why settle for less? Help make sure your product will be the one picked off the shelf with CannaZip®

Elevate Your Brand with CannaZip Packaging Solutions

13
Years of Industry Experience

Our deep-rooted industry experience helps us provide the best service in the sector. Having seen brands come and go throughout the years, we know exactly what it takes to succeed.

3,000+
Products Available

15+
Top MSOs Served

Working with many of the biggest names in the industry truly solidifies our reputation as a trusted and reliable partner in cannabis packaging solutions, meeting the highest standards in the market.

our PRODUCTS

BOXES & CARTONS

PRE-ROLL AND VAPE CARTRIDGE BOXES

DISPLAY BOXES

BOXES FOR JARS AND OTHER ITEMS

*Minimum Order Quantity: 1,000 Units.

CannaZip is a leading provider of custom box packaging! Whether you need a small box for a single product, a large display box for point-of-sale, or even a custom shipping box, CannaZip has you covered! Choose a custom size and thickness and pick from a variety of embellishments for a box that stands out from the rest! Certified child-resistant options are also available. CannaZip's boxes are direct printed to showcase your branding in a professional way! Contact us today to get your custom boxes started!

Need help with artwork for your boxes? Our in-house design team is here to help! We offer design services ranging from making minor adjustments to creating a brand-new concept from scratch. Our design team is experienced in creating unique, eye-catching art that prints exceptionally on our boxes!

When choosing material thickness, please keep in mind that thinner materials will be more cost effective than thicker ones but have less structural stability. Choosing a thicker material will ensure your boxes are sturdy, but may have an increased cost.

GLASS JARS

Presenting CannaZip's Glass Jars. Great for holding cannabis flower or concentrates! These jars are made from recyclable glass and are warehoused in the USA for shorter lead times. Clear glass jars let your flower's beauty speak for itself, while also providing an impeccable seal to lock in flavor and aroma when paired with our child-resistant lids. In addition to flower, CannaZip's Glass Jars are a perfect fit for a wide range of products!

Our Glass Jars pair perfectly with our smooth matte certified child-resistant lids to keep your products sealed and secure. Looking for an eco-friendly lid that meets child-resistance requirements? We have partnered with Humidi to offer lids made with plant-based home compostable materials, and Sana Packaging to offer 100% reclaimed ocean-bound plastic lids, while our standard lids are made from recyclable polypropylene.

Don't see the color you are looking for? Contact us for more information on black glass, coated white or frosted finishes. Our glass jars are also available for direct print or label application for a customized look!

Please note – this item is the jar only and does not include a lid. Lids are sold separately.

Aviator Containers
35% Post-Consumer Recycled (PCR) Content

These containers have a 35% PCR content! Post-consumer recycled (PCR) materials refer to products that have been used by consumers and then recycled. These materials are collected, sorted, cleaned, and reprocessed to create new products. In the context of plastic packaging, PCR plastics come from items like plastic bottles, containers, and packaging that have been disposed of and recycled by consumers. Using PCR materials promotes a circular economy where products are reused, remanufactured, and recycled, thereby extending their lifecycle, and reducing environmental impact.

CannaZip is proud to partner with Sana Packaging to offer their reclaimed ocean-bound plastic jars. Perfect for flower or edibles, these USA-made containers are a great way to present your product in a professional way while making a positive impact on the environment. The 100% reclaimed ocean-bound plastic consists of pure HDPE, which is #2 recyclable. This material is food-grade certified and FDA compliant! Choosing ocean-bound plastics helps keep our oceans clean by removing plastic waste directly from the environment before it ends up in the ocean.

CannaZip offers direct print or labeling on all Sana products! Contact us for more information on customization options!

Please note that this item is the jar only and does not include a lid. The 4oz Ocean Jar pairs perfectly with Sana's 53mm lids, which are certified child-resistant and are made in the USA from 100% reclaimed ocean-bound plastic!

Sana's 4oz Reclaimed Ocean-Bound Plastic Jars are a great fit for 3.5 to 7 grams of flower.

RAPID PRODUCTION, NO MOQ'S 3 SIDE SEAL POUCHES (LAY-FLAT)

Also known as 3-Side Seal pouches, Lay-Flat pouches are perfect for items that do not require the extra space provided by a gusset in a Stand-Up Pouch. They are lower in price when compared with our stand-up pouches since less material is used to make each bag. Lay-Flat pouches are great for edibles, vape products, pre-rolls, and more! Include a zipper to allow your pouches to be resealed! You can also add a round or sombrero-shaped hang hole to allow your pouches to hang on a product display. Make your bags stand out with metallic effects on a metallized material or show off your products with a product window and clear film! Finish it off with a matte or gloss laminate for a look that is sure to turn heads!

No minimum order quantity!

RAPID PRODUCTION, NO MOQ'S STAND-UP POUCHES

Stand-Up Pouches are equipped with an expanded bottom gusset, which adds more interior space to the bag, which also allows it to stand on its own. These bags are a great fit for flower, as well as edible products like gummies! Add a zipper to allow your pouches to be resealed! You can also add a round or sombrero-shaped hang hole to allow your pouches to hang on a product display. Make your bags stand out with metallic effects on a metallized material or show off your products with a product window and clear film! Finish it off with a matte or gloss laminate for a look that is sure to turn heads!

Our Integra Boost humidity packs are designed to maintain the perfect relative humidity inside a container to ensure your flower retains an ideal moisture content. They also help prevent the growth of bacteria, mold, and mildew. Unlike other options on the market, Integra Boost packs contain a salt-free solution that does not alter the natural terpene profile of your flower. Whether it's for long-term storage or for making sure your flower arrives to customers as fresh as the day it was packaged, look no further than our Integra Boost humidity packs!

Custom Printed Shrink Sleeves

CannaZip's shrink sleeves allow you to showcase your products with 360-degree, full color branding! When heated, our waterproof shrink sleeves shrink to conform to the shape of your container. The sleeves are typically printed on polyester or plastic film. Compared to traditional labels, shrink sleeves can offer more label space, and can also add tamper evidence to an existing package. Our shrink sleeves are proudly made and printed in the USA.

LIQUID PACKAGING

SYRINGES

CannaZip now offers a wide selection of syringes for packaging liquid products that require a precise, measured dose. Available in glass and plastic, our syringes are made from food-grade materials and can be lubricated for ease of use. Add graduated markings for an easy to dose solution for end users.

Glass syringes are perfect for use with liquid concentrates including hydrocarbon extracts, solventless rosin, and distillate. Plastic syringes are more suited for consumable liquids like drink mixes, RSO, and other products that can be ingested orally.
